#### **Abstract:**

Students thought the webinar was a novel subject. The speaker enjoyed working with the kids throughout the discussions and idea-sharing sessions about critical thinking. When making a decision, critical thinking involves using logical, skeptic, and objective assessments and evaluation to the facts, data, observations, and arguments that are accessible. Identifying biases, inferences, investigation, identification, curiosity, and determining relevance are the essential critical thinking abilities and the critical thinking process relies on them. Finally, students offer their feedback on their experience.

**SEMINAR : DYNAMICS OF DATA SCIENCE**  
**Date : MARCH 3, 2022**  
**Department : Computer science**  
**Number of Participants: 155**  
**Chief Guest : Mr. Rajkumar Kalaimani**

- On 3rd March 2022, a seminar was conducted on the topic of Data Science by Mr. Rajkumar Kalaimani.
- He is a mentor and a career guidance counselor.
- He discussed the importance of data. The importance of data science is based on the ability to take existing data that is not necessarily useful on its own and combine it with other data points to generate insights an organization can use to learn more about its customers and audience.
- He stated how much can be done with information and how much marketing power it holds. One of the advantages of data science is that organizations can find when and where their products sell best. This can help deliver the right products at the right time—and can help companies develop new products to meet their customers' needs.
- It was an informative session by Mr. Kalaimani which enabled the students to gain perspective on data science.

#### DESCRIPTION OF EVENT

We the students of B.B.A attended the Training programme on “Preparation of Bakery Products” at Tamil Nadu Agricultural University, Information and training Centre. Dr. S. Suganya madam, the Assistant Professor, was there through out the program to guide us We had a marvellous training session by Mr. Sai Murugan, a self made chef. He taught us various recipes which are essential for a baking startup such as Breads, Buns, Puff pastries, Cookies and Cakes. We also got to witness the making of each product from its scratch. He taught us a few tricks and tips to get the recipe just right and professional. We also got to know what are the exact temperatures to bake the products to get the perfect colour and texture of the pastries and breads. It was an amazing opportunity for us to learn all the baking techniques. We all had a mouthwatering tasting session of all that we baked and learned to bake. We baked two birthday cakes -Fresh cream cake and Black forest cake which we finally cut to celebrate two of our class mates’s birthday Monti Saai and Gayathri. It was indeed a great opportunity for us to celebrate the birthday of our friends together. It was an unforgettable experience. Finally we had the distribution of certificates for our participation and a recipe booklet which contains all the items we baked during the session.

We Thank the Head of the Department and all our teachers for giving us this wonderful and memorable opportunity to improvise our Entrepreneurial skills in a very fun and active way. We thank Dr.K.Latha Mam for accompanying us and making sure we were safe and comfortable through the whole workshop

4. Description of the event in a minimum of 150 – 200 words:

The Department of Physics organized a seminar titled "**Sir C.V. Raman's lecture series on Powder X-ray Diffraction Data Analysis**" On April 14<sup>th</sup>-16<sup>th</sup>, 2022. The guest of this seminar was Dr. K. Saravana Kumar (Assistant Professor, Department of Physics, Sri S. Ramasamy Naidu Memorial College, Sattur, Tamilnadu) and 162 participants benefited from the lecture. The participants include Undergraduate, Postgraduate, Scholars and Teaching faculty across the state.

The lecture was based on fundamentals of X - ray Crystallography that includes symmetry of crystal, types of lattices in three dimensions, Space groups, Bond angle, Bond length and Density Functional Theory. The X Ray crystallography software were demonstrated to calculate and interpret the structure of the sample. The hands on demonstration were done for a specified crystal sample step by step till complete structural analysis. Every session, concluded with the fruitful discussion between resource person and the participants. The students are motivated to take up research work and hands on training was useful for their future research activities and expressed the same view in the feedback.

**Report of the Event**

On 28th April 2022, Ms. Nithya, a 2012 batch alumna who is presently working as newsreader in Sun TV, was invited to the department of English to have an interactive session with students. Since the Undergraduate students study journalism as a part of the subject, the session helped them in honing their skills in Newsreading and News Reporting. She expressed her ideas and delineated the skills required for becoming a successful journalist. She also spoke about the opportunities and challenges in the field. Her speech was well received by the students who had their queries clarified gracefully by the guest. On the whole, it was an informative, enriching and equally interesting session.

Ms. Nithya expressed her earnest gratitude to her teachers of the department who played a mighty role in her success. The teachers on their part were proud to see their student, now confident and bold enough to face challenges on her own.

## Report of the Event

The workshop on Writing for Screen focused on creative writing and script writing. Ms. Keerthana Sampath is a former student of the department and is now a successful author and Marketer. Her recent work “Storm Beneath the Grey” is a successful work which has won several accolades. She was an apt person to address the students as she simplified the process of creative writing for students. The workshop was divided in to two sessions, each session focusing on a different aspect of writing. The first session focused on the motive for writing and the resource person helped the students to attempt to write creatively using hints and prompts. The second session concentrated upon the nuances of writing itself. Through an interactive presentation she made it into an enjoyable and engaging session. The students felt that both the sessions were very interactive and refreshing. She taught the students to come up with interesting topics of writing with and without having to rely on prompts. Her session on career advice was very informative and gave useful tips for the students.
