## Online Poster Making Competition – 5<sup>th</sup> October 2021

**Date:** 5<sup>th</sup> October 2021

**Department:** Physics

**Number of participants / beneficiaries:** 57

### **Report of the Event :**

Astronomy Club of Ethiraj College organized an Online Poster Making Competition for the school students of grade 5 to 12 on 5th October 2021. The event was organized for two different categories (classes 5-8 and classes 9-12). The participants were allowed to make hand-drawn as well as digitally drawn posters. As World Space Week-2021 was commemorated in honor of the work done by “Women in Space”, the topics given to participants of grades 9 to 12 were “Inspiring Women in Space” and “Space debris and its consequences”. For participants of the lower grades, the topics given were “What does space mean to you?” and “Will space exploration help improve life?”

The participants were given 5 hours’ time to make their poster and submit it through Google forms. Of the 57 participants, 29 members submitted their posters at the end of the competition. The judgment of the posters was made based on their creativity, presentation, and content. The review of the posters revealed how creative and innovative the school students are. The judges and the organizers were very elated with the submitted posters. This small step of inculcating the importance of science has been the major motive of the competition, and it was very well received by the students. All the participants who submitted their posters were appreciated with an E-certificate. The prize winners were awarded medals and certificates.
