Management Aptitude Test and Test Scores

The Management Aptitude Test (MAT) is designed to measure the aptitude of a candidate for pursuing management education and should be used only for this purpose.

MAT is administered in five sections-Language Comprehension, Mathematical Skills, Data Analysis & Sufficiency, Intelligence & Critical Reasoning and Indian & Global Environment-each section testing a different ability relevant for management education.

MAT administrations necessarily have different questions. Thus one administration may be slightly more difficult or less difficult than another. Scaling has been used to take care of these differences.

The scaled scores reported are standardised scores for respective sections. These scores are reported on a scale of 0 to 100. Extreme scores (below 15 or above 85) are rare.

The percentile below column indicates the percentage of candidates in the test who scores below that of the candidate in the section.

The Composite score is an overall scaled score based on the first four sections of MAT. This is reported on a scale of 0 to 801.

The percentile below for the Composite Score represents the percentage of candidates whose composite scores are below the candidate's. The composite score has a validity period of one year.

All scores and percentile below figures are reported after rounding off to the nearest whole number.

Personal data is as reported by the candidate.
